

Explanation to Parents About Patient Safety and Privacy

For your comfort one adult is welcome *but not required* to accompany your child to the operatory. We do encourage *self independence* to help promote the growth and development of your child. For safety and privacy of the other patients all others, *including children that are not scheduled at this appointment*, are asked to remain in the reception room. Young children in the reception room will need a supervisory adult. Also, please refrain from bringing strollers into the treatment area as well, as they tend to block common pathways.

Additionally, *the use of cellular phones is prohibited in the operatory*. The extra conversation carried on by others in the clinical area can be most distracting to children, preventing us from close, careful communication with each young patient. *Thank you* for your understanding and cooperation in these matters.

This will help us to serve your child better.
